Memory Card Gateway is a central access point for your digital camera, MP3 player, cell phone, PDA, digital video camera, and computer. Use Memory Card Gateway to:

- ◆ Access pictures on your digital camera's memory card. Back-up and archive the pictures on your computer
- ◆ Transfer your MP3 playlist from your computer to the memory card in your digital audio player
- ◆ Share pictures, music, and other data files with your friends by transferring files from your computer to your friend's memory card
- ◆ Move large files from one computer to another
- ◆ Transfer data between Windows/Mac/Linux platforms using Memory Card Gateway as a bridge
